The foot of Felix McCarty, a brakeman on the Barre railroad, was crushed by a wheel passing over it as he was attempting to get on a freight train on Friday last. The larger part of the foot was amputated.

After the usual fight, school district No. 15 has decided to build on "Gazly's corner." We understand Mr. Gazly says it will take \$500 to get it, as he wishes to build a summer residence near the corner. Parties are negotiating with Lewis Keith for the purchase of the ten-acre lot of granite near the Barre railroad, north of the Samner Kimball farm, which is considered to be one of the best light stock sheet quar-ries on Granite Hill.

Building lots are in great demand on Granite Hill. Carnes, Ainsworth & Co., Merrill Eastman, G. H. & H. P. Wheeler and Lewis Keith have sold several within the last week. A store will be immediately erected on one of the lots purchased of Marrill Eastman. Merrill Eastman.

The district suit recently brought against H. A. Rugg et al will not be tried, having been quashed. Mr. Rugg will remain the occupant of Hotel Barre, which is undergoing important repairs under the supervision of Mr. Rugg, who will continue to cater to the public in a hospitable manner.

Some person attempted to interfere with Some person attempted to interfere with the running of the Sunday excursion train to the quarries by pouring oil on the rails near L. F. Aldrich's, but it was discovered and sanded in time to prevent any trouble. Had this been done on the mountain-side, where the grade is two hundred four feet to the mile, and not discovered, the consequences might have been fearful.

The new plant now being erected by A. D. Morse and D. R. Sortwell at the north end of the village will be the best equipped establishment in the country. It will consist of three departments—the polishing-mill, the stone-shed, where all hand work will be cut, and the entting establishment, where all plain surfaces will be cut by machinery. Each machine will do the work of twenty men. It is the tenth machine made since its invention. All machinery will be run by water-power. The dam is now completed and the polishing-mill, stone-shed and cutting department will be ready for business in a few weeks.

This was a suit for false imprisonment, growing out of Mr. Atherton's efforts in the spring of 1884 to break up illegal fishing in Lake Champlain. He had succeeded where every one else had failed, in the face of murderous opposition, and one of the aggrieved fishermen retallated with a suit for false imprisonment. After many delays the case was referred to Hon. J. L. Edwards to find the facts. His report was rendered last week and was all that Mr. Atherton could wish.

For a long period of years prior to the building of Mrs. Fales' house—in 1884, we think—no additions, in the way of new houses, had been made to the erections in this village. It had stopped growing. The additions since that time have not been large in number till within the last two or three years, and particularly the present season. Now and then a previously existseason. Now and then a previously existing dwelling had been remodeled, adding materially to the appearance of the village, as in the case of Dr. Janes' attractive cottage, and a year ago George W. Atkins erected a handsome dwelling on the site occupied by the one it replaced. During the past year, however, a number of fine houses have either been erected, or are in course of erection, that are positive additions to the number of dwelling-places. Dr. Minard has finished a quaint Dutch cottage on Main street, on a lot bought from the old Judge Carpenter property. What the village was needing, however, was room for expansion in some new and attractive localrinage was needing, however, was room for expansion in some new and attractive locality. rects one of our items last week, because it was not "big" enough. After the Squire Benedict farm was purchased for \$4,000, thirteen years ago, a barn costing nearly \$1,000 was built on it. One would judge from the work doing at the lime kiln place that the new owners mean business in the matter of the manu-

facture of lime the coming year; but it is what would be expected of the railroad men who own the property. It affords a degree of consolation to Mr. and Mrs. James Burnham, in the recent death of Elion Burnham, that he was so kindly cared for at the asylimin in Taunton, Muss., in his last illness, where he was held siass. In his last littless, where he was held in high esteem. Something new every day.

This time we did not have to ask the question. The statement was thrown at us as soon as we reached the dress goods department:

Tell the ladies that we have something that will almost take their breath away.

"We have a fine Etna Suiting, made to sell, and sold right along at \$1.25, and certainly worth that amount, that we are now selling at 69c, and they are 50-inch goods, too."

There was a good deal of vim in the words of the department chief, as he held out the excellent goods and displayed their rich colorings and smoothed the fine surface, as though the fabric might know how highly he prized it.

Well, these Ætna Suitings at 69c a yard are a prize, and you had better see them.

You remember the stir over our Drap de Neglige made when we first announced them. It was amusing to note with what haste they were sought to be duplicated by others.

We will start out another little fox this morning, for a run here and there among our friends, and tell of it now, so that all can join in the chase.

Drap de Perse is the name of a new comer for your favor. It is made on the same general lines of the Drap de Neglige, but there is a wonderful difference in the colorings and designs, the Drap de Perse being so close a copy of the finest woolens as to require a careful A new street lamp has been placed in front of the Methodist church, and platforms have been built extending from the granite steps to the difference; 12 1-2c a yard.

We did not claim that our 50-inch Tricot, at 25c a yard, was equal to \$2.00 French Broadcloth. But we did tell you that it was a mighty big bargain at the price you could get it for, and so it is. We have been obliged to get more of it, so you can still get it at

25c a yard. Talking of Broadcloth reminds us that we shall open to-day some first-quality French Broadcloths that belong with the \$1.37 1-2 class, but that, in some way or other, we are

going to sell at \$1.00. The German Broadcloth, of our own importation, is still unexcelled at 75c a yard.

We started the season claiming the best dress goods in the market at 35c a vard, in all colors. We kept that claim good, and the new India Twills opened yesterday are even nicer than what you saw New Percales-genuine Indigo Percales-new designs, including even Persian Stripes, the best and brightest yet pro-
